

CH-812 - Heating resistor (upgraded release)

Spare Part Number: CH-812

Net Weight: 0.00kg

Net Dimensions: 0.00cm x 0.00cm x 0.00cm

Description

CH-812 Heating Resistor (upgraded release)

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

quartz 3200w

Made in Italy for 812

Equipment Ref

812 Ref **R1** - heating
