

## CH-024 - Heating resistor

**Product Code:** CH-024

**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

### Description

## CH-024 Heating Resistor

Quartz heating is a type of radiant heating, commonly referred to as short-wave infrared heating. The tubes are manufactured from quartz glass (fused silica), which protect and support the heating coils. They provide efficient transmission of infra-red radiation, good resistance to chemical and contamination.

Heating coils are wound in various grades of iron-chrome-aluminium alloys to match the applications and operating conditions, and typically generate radiant emission in the short to medium wavelength range.

quartz 3200w

Made in Italy for 812

### Equipment Ref

812 Ref **R1** - heating

## Specification

Spare Part Type	
Electrical Component	
Spare Part Group	
Heater	
Stock Type	
Standard Stock
